Prescription or non-prescription medication including but not limited to pain relievers, cough syrup, antihistamines, or nose drops, may be given to a child under the following conditions:

- 1. A medication authorization form signed and dated by the parent is on file.
- 2. Prescription medication is in the original container and labeled with the child's name, name of drug, dosage and directions for administering, date and physician's name.
- 3. Non-prescription medication is in the original container, labeled with the child's name, dosage, and directions for administering.
- 4. All medications are secured in a tightly–covered container with a child-proof lock or latch and stored so that they are not accessible to children.
- 5. Medications requiring refrigeration are kept in the refrigerator in a separate tightly-covered container with a child-proof lock or latch, clearly marked medication.
- 6. Parents are informed daily of medications administered to their child.
- 7. Programs must immediately document the administration of any medication.
